ShowroomCharger 32A

The ShowroomCharger features the latest charging technology, has no noisy fan and is 95% efficient. It is easy to operate and ideally suited for maintenance charging - ensuring that your vehicles are ready and fully operational for the next potential Customer. The Detachable Cables and compact size make the ShowroomCharger easy to move and discreetly place under vehicles, keeping your vehicles ready for a test drive and helping you give the best possible first impression!

User Friendly

Easy to use and monitor

Optimal Charging

Temperature compensation

Upgradeable Software

USB connector

Silent

No fan, no noise

Flexible in Use

Detachable Cables and high quality Clamps

The Detachable Cables can easily be passed through the Engine compartment, making it possible to discreetly place the Charger under the vehicle during charging.

The ShowroomCharger is completely quiet and can easily be kept out of sight.
